Feed mill audit & training

Netherlands poultry specialists share their expertise in Indonesia

Feed mill audit & training

Introduction

Dutch partners

Van Aarsen (lead partner), Van Eck Industrial Hygiene and Larive.

Indonesian partner

PT. Sabas Indonesia

Training locations

Medan, North Sumatra.

Objectives

1. Support mid-sized Indonesian animal feed producers with improving their operations.

2. Contribute to the transfer of feed production knowledge from the Netherlands to Indonesia.

Feed mill audit & training

Activities

Activities

1. Execute an audit on:
   - Feed mill efficiency;
   - Production processes & sustainability;
   - Product safety;
   - Storage conditions.

2. Formulate scenario's to improve operations and provide insight in the potential relevant investments that could support realising these improvements.

3. Draft a presentation summarizing findings, observations and recommendations.

Feed mill audit & training

About PPP FoodTechIndonesia

Strengthening cooperation between Indonesian & Dutch private sector

Ministry of Foreign Affairs of the Netherlands

- Private-public initiative combining the strengths of Dutch companies active in the poultry value chain.
- 3 year program (July 2013 – June 2016) funded by private sector partners & Dutch Ministry of Foreign Affairs.

Goals:

1. Strengthen the Indonesian poultry sector:
   I. Stimulating knowledge transfer;
   II. Improving linkages within the poultry value chain;
   III. Implementing show-cases of best practices.
2. Establish/expand Dutch presence and investments in Indonesia.
