# FoodTechIndonesia

*Adding value to the Indonesian poultry sector*

Project: Broiler farm audit & training  
Subject: Audit West-Java, 21-26 September 2014  
Presented by: Van Eck Industrial Hygiene (lead partner)  
Hendrix Genetics  
Pas Reform  
Larive  
Date: 22 June 2015

# Broiler farm audit & training

Netherlands poultry specialists share their expertise in Indonesia

# Broiler farm audit & training

## Introduction

### Dutch partners

Van Eck Industrial Hygiene (lead partner), Pas Reform, Hendrix Genetics and Larive.

### Training locations

Bogor & Parung Panjang, West-Java.

### Target group

7 mid-sized Indonesian broiler farms, owned by Hartono (4) and Amanah Mitra Sejahtera (3).

### Objectives

1. To support mid-sized Indonesian companies active in broiler farming with improving their operations (focus on medication & animal health).
2. Contribute to the transfer of broiler farming knowledge from the Netherlands to Indonesia.

# Broiler farm audit & training

## Activities

### Activities

1. Execute an **audit** on:
  - Animal health conditions.
  - Animal diseases.
  - Disinfection methods & biosecurity.
  - Medication usage.
2. Formulate **scenario's** to improve operations and provide insight in the potential relevant investments that could support realising these improvements (if applicable).
3. Draft a presentation **summarizing findings**, observations and recommendations.

# Broiler farm audit & training

# About PPP FoodTechIndonesia

Strengthening cooperation between Indonesian & Dutch private sector

- Private-public initiative combining the strengths of Dutch companies active in the poultry value chain.
- 3 year program (July 2013 – June 2016) funded by private sector partners & Dutch Ministry of Foreign Affairs.

## Goals:

1. Strengthen the Indonesian poultry sector:
  - I. Stimulating knowledge transfer;
  - II. Improving linkages within the poultry value chain;
  - III. Implementing show-cases of best practices.
2. Establish/expand Dutch presence and investments in Indonesia.

# FoodTechIndonesia: project partners

Consortium of Dutch companies active in the poultry value chain

Inputs → Feed → Hatchery → Farmers → Processing → Cooling/ logistics/ packaging → Retail
